## PORT ARTHUR MUST YIELD.

Japs Make Another Bold Attack on Russia's Impregnable Fortress, Port Arthur, with Great Success.

### DRIVE THE RUSSIAN WARSHIPS TO SHELTER.

Two Cruisers and the Great Battleship Retuezvon, were Badly Damaged, and a Torpedo Boat was Sunk. Thousands of Russians on the Yalu River. Russian Reverse on Land. The Baltic Fleet has been Ordered East.

[BULLETIN SPECIAL WAR SERVICE]

#### Splendid Victory for the Japs

Ying Kow, February 29.—Fifteen Japanese warships appeared at Port Artifur at 10 o'clock this morning and opened a furious bombardment.

The cruisers Novid, Askold and Boyan with four torpedo boats steamed out to meet the Japanese but were forced to return, the Askold in a bad condition and the Novid badly damaged. A torpedo boat was sunk and the great battleship Retizan damaged. The bombardment lasted two hours and the Japanese fleet then withdrew in perfect order. Some Russian artillery has proceeded to Pigeon Bay.

#### Massing of Troops

Ying Kow, February 29.—Twenty-five thousand Russians are on the Manchuria bank of the Yalu and four thousand mounted infantry troops and artillery hold the mountain passes, thirty-five miles south of the Fugu.

#### Russian Reverse

In China is circulated a rumor to the effect that the Japanese repulsed the Russians at Youm Ching, in Corea, east of Yangampo. A few thousand Russians remain at New Chung.

#### Another Attack on Port Arthur

New York, March 1.—The World's St. Petersburg correspondent cables: "A report has been spread throughout the city that the Japanese have made a great combined attack by sea and land on Port Arthur and that fighting is going on now and that there have been further naval losses."

#### Port Arthur Must Soon Yield

London, March 1.—The Tien Sein correspondent of the Express says the repeated attacks on Port Arthur have created a condition approaching demoralization among the troops. There is little hope that the place will be able to make a long defence as provisions are already exceedingly short and it is expected when the town is invested that hunger will soon compel capitulation.

#### GRAND TRUNK PACIFIC.

Modifications Have Been Made Public. Some of the Principal Amendments.

Ottawa, March 1st.—The modifications in the new Grand Trunk Pacific agreement are reported to be as follows: The deposit is to be returned when the western section is ready for operation without waiting for the eastern section to be completed.

The company need not pay interest on the bonds on the prairie section until five years after the completion and operation of the road, nor on the mountain section until fifteen years after the completion and operation.

After that the company may still defer payment of the interest until the case take temporary possession until the liability of the company is paid off from the profits, at which time the company will again resume possession.

After the first fifty years are up the company is to have running powers over such portions of the eastern sec-

tion as it may desire for another fifty years.

If at the end of the first fifty years the Government desires to operate the eastern section it must purchase from the company such branch lines as the Grand Trunk Pacific desire it to purchase.

#### TO MAKE OBSERVATIONS

#### ON RUSSIA-JAPAN WAR.

Canadian Government Sends Captain Tucker of Royal Canadian Artillery, to the Seat of War.

(Bulletin Special Despatch.)

Ottawa, March 1st.—Captain H. C. Tucker of the Royal Canadian Artillery has been appointed by the Military Department to be attached to the Japanese army to make observations for the benefit of the Canadian artillery.

—Notice has been given that Joseph Baxton, boiler inspector, of Calgary, will hold examinations at Strathcona on March 18th and Edmonton

March 21st for the purpose of giving engineers and apprentices an opportunity of qualifying for certificates under the provisions of the steam boiler ordinance.

Holders of provisional certificates which have expired must pass the examination for either a second or third class certificate before continuing to act as engineers in the Territories or being entitled to a second provisional certificate.

#### GREAT LOSS OF LIFE

#### ON STEAMER QUEEN.

Which Partially Burned at Sea. One Hundred and Forty, Mostly Women and Children, were Lost.

Port Townsend, February 29th.—After suffering most harrowing experiences from fire and storm, the steamer Queen put in here this morning to report the loss of 140 lives.

Early Saturday morning, while off the mouth of the Columbia river, fire broke out in the saloon, but the cause

of the blaze is not known. It gained headway rapidly and soon it enveloped the whole ship. Heavy seas meant death to any person sent away in a life boat. The flames became more and more threatening until when it seemed but a chance of either death from fire or drowning, the captain ordered the life boats launched.

They were manned and a number of women and children lowered into them. Hardly had the boats been cast loose than two of them were capsized by huge waves.

Those of the passengers and crew who remained on board continued their flight against the flames with increasing success until about eight o'clock the blaze was brought under control. She reached her without further mishap and proceeded to Seattle, where she arrived about night fall.

—The weather probabilities are for continued fine but decidedly cold weather in the Territories.

—The regular meeting of the Edmonton City Council will be held in the usual place this evening.

## THE TARIFF, EAST AND WEST.

Objection is sometimes made to the arguments advanced in the West against high tariff as being local and sectional—not sufficiently broad and patriotic. The western farmer is exhorted to be patriotic and broad-minded enough to submit to largely increased taxation in order that Canada at large may be built up, which is all very nice in its way. But what about the patriotic and broad-minded arguments which are advanced to the Eastern artisan to show him that his interests will be served by increases in the tariff. Here is a sample from the editorial columns of the Montreal Gazette of recent issue, addressed to the electors of a manufacturing division of Montreal:

"A good many of the workers of the St. James division have an interest in the success of the large woolen manufactory just outside the borders. The Premier's winning ways do not practically compensate them for a loss of employment or wages caused by the operation of a tariff that encourages imports rather than home production. Neither is the passing personality of the Liberal leader an offset for the large sums being collected in the shape of federal taxes, on tobacco, on sugar, and other personal and household necessities of comports, and the pressure of which is taking the cream off the growing time and being used to justify the increase in rents and other living expenses."

While the Eastern artisan is exhorted to vote for high tariff so that a larger percentage of the national taxes will come off the western farmer on his machinery and less off himself on his tobacco and "other personal and household necessities and comforts"—whiskey to wit—the western farmer is exhorted to broad-mindedness and patriotism, a prescription which may be fitting but is certainly not fattening.

## FOR, OR AGAINST.

During the political meetings which were recently held throughout the electoral district, the supporters of the opposition party was to have the electors believe that their party was not opposed to effective railway competition for the Territories, as offered by the government in the Grand Trunk Pacific project and that a vote against the government was not a vote against the railway.

Recently a number of bye elections were held in various parts of eastern Canada. In one case only, that of St. John city, the election resulted in a change of part allegiance. This constituency had been represented by Hon. Mr. Blair, and became vacant on his resignation to take the chairmanship of the railway commission. In all cases the conservative papers declare that the defeat of the government candidates in that constituency is a condemnation of the Transcontinental railway.

The Winnipeg Telegram says:—The issue in St. John was the G. T. P. Policy of the Ottawa Government. And the verdict was decisive.

The Toronto World says:—The Grand Trunk Pacific Railway scheme received a severe blow in the defeat of the government in St. John.

The Montreal Gazette says:—The ability of its author to deliver a pleasing address does not make any less extraordinary, extravagant or unjustifiable, that wild political addition to the Grand Trunk Pacific's project, the government constructed railway from Winnipeg to Moncton.

The Winnipeg Tribune, which is

bitterly opposing the Grand Trunk Pacific, as it also opposed the Canadian Northern ~~as~~— There is not a local headed man in the country who will question the wisdom of the electors of St. John, N. B., in emphatically turning down such a monstrous proposition.

The St. John Sun says:—Mr. Emerson and Mr. McKeown appealed to the people of St. John to say whether they approved or condemned the scheme. The people have condemned it in the most clear and unmistakable way. And their verdict is just.

Whether for one reason or another, or for no reason at all, a majority of the electors of St. John city voted against the government, that vote is universally proclaimed by the eastern conservative press as a blow at the Transcontinental railway. As it is in the east, so it must be in the west. A vote against the railway, which is a vote against the government, is the chief policy of the government. As it was in St. John so it would be in Edmonton. It may be that St. John can afford to take chances, but Edmonton cannot. We want the new Transcontinental, and want it now, or as soon as possible. We can't get it by trying to overthrow the government which is securing it.

## ANOTHER BARR COLONY.

A recent despatch says that the C.P.R. are making arrangements to bring out 1000 British immigrants to Lloydminster, sailing from London about May 1st. This party will save themselves much hardship and expense, if they come by way of Edmonton instead of Saskatoon as the Barr Colony did. Lumber for their buildings must be taken down the Saskatchewan river, and it is much better for them to have their effects taken down the river on rafts of lumber which they will need than to pay for rafting the lumber from Edmonton, and the freighting of their effects from Saskatoon.

The attempt made to freight their own effects from Saskatoon, by the Barr colonists was a failure, and must always be over such a long road for people unacquainted to the work. Supplies of lumber, grain, potatoes etc., for the Barr colony have been taken down the river from Edmonton since the arrival of the colony last spring from Saskatoon, proving what needs no proof that heavy freight can be floated down the stream more cheaply than it can be freighted over land. The managers of the colony will be doing anything but well for their people if they follow the route and method of the Barr colonists. For those who purchase stock and must therefore drive overland, the road from Edmonton is as short as that from Saskatoon, or indeed shorter.

## DRIFTS IN MANITOBA.

The Winnipeg Telegram of Feb. 22nd, has a news item under the heading "Fuel" coming by special train—C.P.R. is hurrying coal to relieve distress in Winnipeg."

The special train alluded to is from the eastern mines. The same item mentions that the Ogilvie mill has shut down for lack of fuel and thrown 150 men out of employment.

A.C.P.R. official just returned from outside points said:

It was very difficult to move anything on account of the snow. As fast as the railway workers could get the roads plowed the wind would blow the snow in again, filling the cuts and the snow has a mixture of sand in it, so that it packs hard, making it very difficult to clean out. Snow-plows have been working all the time and large gangs of men have been kept at work in the effort to clear the lines. It is expected that a few days of good weather will set the lines into operating condition again.

Fred S. Lawrence, leaves to-day for Fort Vermilion with four teams and a large supply of farm machinery and supplies. He is accompanied by B. Decoteau who takes in two teams and a large quantity of provisions. About six thousand dollars worth of farm machinery and supplies are being taken to Fort Vermilion this spring.

Leaves Pleasant Camp a Mounted Police Post Within Canadian Territory.

Ottawa, February 29.—Sir Wilfrid Laurier has received a telegram from the commander of the Mounted Police at Dawson stating that two officers of the United States party paid a visit to Pleasant Camp, a Mounted Police post on the Dalton trail. This is one of the line camps that the question was raised whether it was in Canadian or United States territory. The officers took photographs of the camp and expressed their views before leaving that it was clearly within Canadian territory as defined by the recent Canadian boundary awards.
